PRESS RELEASE 04-03-2012

The State of Ohio, as well as 16 other States, uses *Offender Watch* to register sex offenders in the State of Ohio. As well, the Lake County Sheriff's Office is an active user of *Offender Watch* when we process sex offenders, and track their movements. It enables police to better monitor sex offenders living in the community and alert the public when an offender moves in.

Offender Watch has developed a new tool that you can access through Facebook. It is a great tool for both parents and educators alike. It can be used to look up information on sex offenders, and be informed of who's living in your community and where they are in relation to your family.

The Lake County Sheriff's office has added a link on its Facebook page. This community notification Facebook application enables you to click and sign up to receive alerts without ever leaving Facebook. Visit our website at: <http://www.lakecountyohio.gov/Default.aspx?alias=www.lakecountyohio.gov/sheriffoffice> and select the Facebook link. Then select the **sex offenders search** link to register for updates. It is that easy.

Informed citizens = safer communities!
